

April 9, 1984

according to the total area occupied by such land. Now what that means is this. It means this Legislature, if this amendment was to pass, could actually distinguish large landholdings from small landholdings in terms of their property tax classification. This is a system that is in place in several farm states. This system, I swear to goodness, if it was in place would undo the need for Initiative 300, would undo the need for Initiative 300 because this system would tax more extensively large landholdings than small landholdings but again it is simply permissive, not mandatory, permissive. The debates will rage next year and the year thereafter and the year thereafter regarding the classification scheme but at least the resolution if amended by my little amendment will put it in a good posture so that the debates can rage and so that we can adopt the correct policy for our farmers and our ranchers. I move the amendment.

SPEAKER NICHOL: Senator Beutler. Senator Hannibal, state your points.

SENATOR HANNIBAL: Mr. Speaker, I would like to know exactly what the motion is on the floor before us. I was under the impression that we had a motion before us to suspend the rules. Are we going to, when we put a vote up there, are we going to be voting to suspend the rules or are we talking about one resolution right now or an amendment to a resolution? I would like to know what happened to the motion to suspend the rules.

SPEAKER NICHOL: I am not sure that...in fact I don't think that Senator Vard Johnson can amend that because we are on the suspension of the rules and we are on one portion of the suspension of the rule and that is the DeCamp amendment. So I don't think that you are in order, Senator Johnson, to amend at this time. Then, Senator Hannibal, we are on Senator John DeCamp's motion to suspend and adopt his portion without any further vote, one vote...no, wait a minute. The motion is to suspend the rules and vote on DeCamp's motion which is one vote, 30 votes. It is all one vote and that is what we are on, Senator Hannibal.
